

PRESS RELEASE

Tyringe June 11, 2010

NovaCast receives order worth approximately 8 MSEK from new European customer.

NovaCast's subsidiary Camito AB has received an order for three die sets, 7 tools for immediate production start. The order is from a German customer who is an expansive supplier to leading automotive groups, among others Volkswagen, Audi, Mercedes-Benz and Porsche.

The order includes several stages in Camito's total offer to customers, such as construction, casting and completion. This will involve production utilization at NovaCast's subsidiaries Camito Technology Center and SwePart Verktyg. The complete dies will be delivered to the customer, who in turn will stamp car body parts to one of the leading European automotive groups (OEM).

NovaCast Technologies, listed on the NASDAQ OMX Stockholm Small Cap list (NCAS B), develops and markets enhanced castings for the production of car body parts, as well as software for methoding, simulating and process control for more efficient production processes to the global automotive industry and its subcontractors. With the Camito technology enhanced castings are manufactured in one solid piece for the production of dies for forming and stamping automotive body components in a considerably shorter time than traditional dies. Through die manufacturer SwePart Verktyg the group has expertise within the whole value chain for the production and sales of stamping dies.
